Minutes 1st National Steering Committee Meeting

2nd of October 2013

Bilbao

The First National Steering Committee Meeting was celebrated on 2nd of October 2013 in Bilbao.

1.- Creation of the Steering Committee in Spain

The National Steering Committee was established with the objective to ensure the relevance, transferability and recognition of the project results and outputs.

2.- Participants

The Committee is constituted by representatives of one National Association of Integral Maintenance and Energy Services Companies (AMI), Association of district heating and cooling providers companies (ADAHC), three main ESCOs (San Jose Group, Dalkia and Cofely), two equipment supply companies (Uponor and Inpal), El Instalador magazine and Escan.

3.- Country Report and Survey

A survey was elaborated to implement the Country Report on Identified Barriers and Success Factors for EPC Project Implementation. This survey was sent and reply by some of the members of the Committee before this First National Steering Committee Meeting. Some of them did comments and provide opinions about the Market barriers and success factors.
