1 Description and evaluation of the training

Country	Sweden
Training No.	1
Date	28th of April 2014
Title	Kundpanel för energieffektivisering
Location	Energimyndigheten, Rosenlundsgatan 9
Organised by	IVL and Energieffektiviseringsföretagen (EEF)
Co-organised with	Energimyndigheten (Swedish Energy Agency)
Training duration (hours)	4 hours
Target groups	Potential EPC clients
Number of participants	11
Minutes from the training (few bullet points on the content and approach)	<ul style="list-style-type: none"> • Market for energy services in Sweden; possibilities and barriers • EPC Code of Conduct • Energieffektiviseringsföretagens (EEF:s www.eef.se) work for starting an association for ESCO:s in Sweden

1 Average ratings received from the participants

-	The difficulty level was about right.
-	I can apply the information in my work on implementing EPC projects
-	The training met my professional educational needs .
-	The trainer actively involved me in the learning process.
-	As a result of this training, I feel more confident in my capacity to develop EPC projects

2 Summary of the evaluation by participants and response by the partners, especially conclusion on how the **future trainings should be improved**

a) **Strengths** of this training

Summary of the opinions by the participants

Response by the partner

<p>The participants (representing the demand side) participated actively in the discussions regarding the market for energy efficiency projects in Sweden and were positive to the initiative.</p>	<p>A need for increased dialogue between the suppliers and the clients were identified and Transparensense can facilitate this.</p>
--	---

b) **Weaknesses** of this training

Participants

Response by the partner

	<p>Not relevant for this training. The training focused on identifying the clients and potential clients (i.e. the demand side) needs and discussing whether the Code of Conduct could address these needs.</p>
--	---

c) Tips to **improve** the training

Summary of the opinions by the participants

Response by the partner

	<p>Not relevant for this training. The training focused on identifying the clients and potential clients (i.e. the demand side) needs and discussing whether the Code of Conduct could address these needs.</p>
--	---

d) **Additional areas of** training to be included

Summary of the opinions by the participants

Response by the partner

	<p>Not relevant for this training. The training focused on identifying the clients and potential clients (i.e. the demand side) needs and discussing whether the Code of Conduct could address these needs.</p>
--	---

e) **Benefits** of the training for participants

Summary of the opinions by the participants	Response by the partner
	Not relevant for this training. The training focused on identifying the clients and potential clients (i.e. the demand side) needs and discussing whether the Code of Conduct could address these needs.

f) Feedback to the **Code of Conduct** from the participants

Summary of the opinions by the participants	Response by the partner
The participants (representing the demand side) were positive to the Code of Conduct and thought that it could be valuable in the Swedish market (10 out of 10 participants expressed that a CoC could be useful). 3 out of 10 participants expressed that the CoC's current level of detail was satisfactory, while the other participants did not know/could not answer this question at the moment.	The participants response show that the demand side is positive to a Code of Conduct and the continued work on developing the code is important. IVL will continue to support the dialogue between suppliers and a clients.

Comment on the evaluation of the training: The training 2014-04-28 was successfully organized and implemented in cooperation with the Swedish energy service supplier association EEF www.eef.se, although given the many different issues that were addressed during the training (i.e. the training focused on identifying the clients and potential clients needs and discussing whether the Code of Conduct could address these needs) we did not have the possibility to ask the participants to address all the questions in the questionnaire, but had to ask them to focus on the ones addressing the Code of conduct (i.e. question 2 a and f).

Annex 1 Invitation

Välkomna till EEF:s kundpanel för energieffektivisering!

Energieffektiviseringsföretagen, EEF, är en branschorganisation för företag som arbetar med energieffektivisering åt sina kunder.

Det finns en stor potential för att effektivisera energianvändningen i byggnader och industri. Det finns mål på hur mycket vi ska effektivisera energianvändningen fram till 2020 och 2050 för att inte klimatförändringarna ska bli allt för stora. Men det finns hinder på marknaden för att energieffektiviseringsprojekt ska initieras.

Därför bjuder EEF in er till att delta i vår kundpanel för energieffektivisering.

Träffen arrangeras tillsammans med Energimyndigheten och IVL Svenska Miljöinstitutet och äger rum den 28 april 2014 kl. 9.30 - ca 13. Välkomna från kl. 9.00 då vi serverar frukost. Vi avslutar med gemensam lunch.

Agenda för mötet:

Presentation av EEF

Presentation av Energimyndighetens arbete för energieffektivisering, Nathalie Adilipour och Anders Pousette

EU:s Energieffektiviseringsdirektiv

Presentation av IVLs arbete kring energitjänster, t.ex. Uppförandekod, Jenny Gode

Marknaden för energieffektivisering

Diskussion kring energieffektivisering, förtroende för leverantörer och entreprenörer, vad skulle en certifiering av energitjänsteleverantörer kunna innehålla, affärsmodeller m.m.

Syftet med mötet är att samla in era åsikter kring energieffektivisering och hur vi kan arbeta bort de hinder som finns, för att öka takten för energieffektivisering i samhället.

Adressen är Rosenlundsgatan 9, 2 tr, lokal Bullerö

Vägbeskrivning här <http://www.energimyndigheten.se/Om-oss/Kontakta-oss/Hitta-till-oss/>

Vid frågor kontakta

Lotta Bångens, EEF, på 070-343 92 12, lotta.bangens@aton.se

eller Ebba Lindencrona, EEF, på 070-396 24 18, ebba.lindencrona@aktea.se

Jenny Gode, IVL, på 08-59856318, jenny.gode@ivl.se

Johanna Fredén, IVL, på 08-598 56429, johanna.freden@ivl.se

OSA senast den 16 april till ebba.lindencrona@aktea.se

Välkomna!

Annex 2 Agenda

Agenda för mötet:

- Presentation av Energieffektiviseringsföretagen (Lotta Bångens, EEF)
- Presentation av Energimyndighetens arbete för energieffektivisering (Nathalie Adilipour och Anders Pousette, Energimyndigheten)
- Presentation av IVLs arbete kring energitjänster, Transparense och Uppförandekod, (Philip Thörn, IVL)
- Diskussion kring marknaden för energieffektivisering: problem och möjligheter (Alla)

Annex 3 List of participants

Lotta Bångens	Energieffektiviseringsföretagen
Ebba Lindencrona	Energieffektiviseringsföretagen
Hans Nilsson	Energieffektiviseringsföretagen
Johanna Fredén	IVL
Philip Thörn	IVL
Anders Pousette	Energimyndigheten
Nathalie Adilipour	Energimyndigheten
Lennart Lifvenhjelm	Vasakronan
Bengt Wånggren	Sweden Green Building Council
Dan Andersson	Västmanlands Läns Landsting
Birgitta Parling-Andersson	Ludvika Kommun
Stefan Andersson	Ludvika Kommun
Tommy Waldnert	Fastighetskontoret Stockholm Stad
Reine Sjölund	Lidingö Stad
Therese Rydstedt	SABO
Cristian Casta	Järfälla kommun
Maggi Nordström	Svenska Kyrkan
Åke Höppner	Svenska Kyrkan
